

## United States Department of Agriculture,

OFFICE OF THE SECRETARY.

---

### NOTICE OF JUDGMENT NO. 682, FOOD AND DRUGS ACT.

---

#### ADULTERATION OF DESICCATED EGGS.

On or about February 4, 1910, The Crandall Pettee Company, a corporation, New York City, shipped from the State of New York to the State of Virginia a quantity of desiccated egg labeled: "The Crandall Pettee Co., Bakers and Confectioners Supplies, New York." Samples from this shipment were procured and examined by the Bureau of Chemistry, United States Department of Agriculture, and as it appeared from the findings of the analyst and report made that the product was adulterated within the meaning of the Food and Drugs Act of June 30, 1906, the Secretary of Agriculture afforded said The Crandall Pettee Company and the party from whom the samples were procured opportunities for hearings. As it appeared after hearings held that the shipment was made in violation of the act, the Secretary of Agriculture reported the facts to the Attorney-General, with a statement of the evidence upon which to base a prosecution.

In due course a criminal information was filed in the Circuit Court of the United States for the Southern District of New York against said The Crandall Pettee Company charging the above shipment and alleging that the product so shipped was adulterated, in that it consisted in whole or in part of a filthy, decomposed, or putrid animal or vegetable substance.

Upon arraignment the defendant entered a plea of guilty to the above information and the court imposed a fine of \$25.

This notice is given pursuant to section 4 of the Food and Drugs Act of June 30, 1906.

W. M. HAYS,  
*Acting Secretary of Agriculture.*

WASHINGTON, D. C., November 1, 1910.
