

Everything bothers you and you try to rest but this does not do any good, and every time you exercise or go out you catch cold quickly. Always seem to have a cold and nothing will break it up. Allfood helps to eliminate and overcome all these troubles, because it is the salts the blood needs to be healthy and keep healthy * * * The correct feeding will bring back the vigor and feeling of real living to you and keep you from disease by building up the resisting forces of the body and giving to the blood the correct elements it needs to make healthy brain, nerves and body. If Allfood is taken 2 to 3 before meals it will aid in the elimination from your body all diseases and the effects they have had on your body. They will make old feel younger and happier, and make the young stronger and healthier. * * * is based on the amount of waste that takes place each day * * * The child who has no life and who is below normal in brain, body and health from any cause, either disease or the fact that their food does not contain the elements to bring them back to normal health in both brain and body. They may be getting this food but it is insoluble and does not reach the blood and therefore does no good and diseases can enter the body because the resisting forces are down. The child is over-size, or is destructive, cannot be controlled, is wayward; may seem bright, but just cannot be good though they try. All such children can be made normal by proper food and care and be happier, stronger and more contented. It aids and helps all diseases, whether from worry or overwork or effects of some disease. * * * For grown-ups, take two to three tablets before meals and at bed time until feeling better, which is usually in three to six days, then taken two before meals. As Allfood is harmless and not a drug, it is good to take more doses to start on and if for any reason, such as extra work or worry, you should feel badly again, take bigger doses and oftener, until feeling normal again. If you take enough they will do the work. If you have neuritis, or there was a paralytic condition and had pain when the spell came on you are very apt to have pains again for a few days as the nerves come back to normal life and feeling. If so, keep it up and you will get over the trouble as it is a good sign. In A Nut Shell It makes and keeps men and women healthy. It makes the weak feel stronger and younger by feeding the food that is necessary to keep the blood in a normal, healthy condition; It aids in the development and growth of children. It aids in developing strong brain, nerves and body. Try it in nervousness, tired, run-down condition; high blood pressure, hardened blood vessels, diabetes, stomach, liver, and lungs; effects of influenza or pneumonia; hot flashes; in fact, if you feel bad in any way, take it. It aids in removing and prevention of goitre in young women and girls. It aids in removing and prevention of pimples in young boys and girls. * * * for tired, run-down feeling. * * * You Feel Younger * * * You'r Tired Try A Box." Misbranding was alleged for the further reason that the name "Allfood With Radium," was misleading, in that the tablets were not all food, even without the radium.

On January 17, 1927, W. S. Townsend, Los Angeles, Calif., having appeared as claimant for the property, and the product having been relabeled to comply with the law, a decree was entered, ordering that it be released to the said claimant upon payment of the costs of the proceedings and that the bond theretofore filed be exonerated.

14833. Adulteration and misbranding of cinchona compound tincture, cinchona alkaloids elixir, and ipecac sirup. U. S. v. Felborn Pharmaceutical Co., Inc. Plea of guilty. Fine, \$300. (F. & D. No. 21551. I. S. Nos. 7981-x, 7982-x, 7983-x.)

On December 17, 1926, the United States attorney for the Eastern District of New York, acting upon a report by the Secretary of Agriculture, filed in the District Court of the United States for said district an information against the Felborn Pharmaceutical Co., Inc., a corporation, Brooklyn, N. Y., alleging shipment by said company, in violation of the food and drugs act, on or about December 1, 1925, from the State of New York into the State of Connecticut, of quantities of cinchona compound tincture, cinchona alkaloids elixir, and ipecac sirup which were adulterated and misbranded. The articles were labeled in part, variously: "Tincture Cinchona Compound U. S. P." or "Elixir Of Cinchona Alk. Elixir Calisaya N. F." or "Syrup Of Ipecac U. S. P." and were further

labeled, "Manufactured True To Label Felborn Pharmacal Co., Inc. Brooklyn, N. Y."

Analysis by the Bureau of Chemistry of this department of samples of the articles showed that the cinchona compound tincture yielded not more than 0.247 gram of the alkaloids of cinchona per 100 mls. which is less than $\frac{1}{2}$ of the minimum requirement of the United States Pharmacopœia; the cinchona alkaloid elixir calisaya contained ingredients other than those prescribed in the National Formulary, namely, acetone (1.1 per cent by volume) and peppermint oil; the ipecac sirup yielded less than 1.26 grams of ether soluble alkaloids of ipecac per 1,000 milliliters, namely, not more than 1.104 grams of the ether-soluble alkaloids of ipecac per 1,000 milliliters, which is less than the minimum requirement of the pharmacopœia.

It was alleged in substance in the information that the articles were adulterated, in that they were sold under and by names recognized in the United States Pharmacopœia or the National Formulary, as the case might be, and differed from the standard of strength as determined by the tests laid down in said pharmacopœia or National Formulary, in that the cinchona compound tincture yielded not more than 0.247 gram of the alkaloids of cinchona per 100 mls. whereas the pharmacopœia provided that it should yield not less than 0.4 gram of the alkaloids of cinchona per 100 mls; the cinchona alkaloids elixir contained ingredients not prescribed by the National Formulary, nameiy. acetone and peppermint oil; the ipecac sirup yielded not more than 1.104 grams of the ether-soluble alkaloids of ipecac per 1,000 milliliters, whereas the pharmacopœia provided that each 1,000 milliliters of ipecac sirup should contain 70 milliliters of fluidextract of ipecac and that 100 mls of fluidextract of ipecac should yield not less than 1.8 grams of the ether-soluble alkaloids of ipecac. so that 1,000 milliliters of ipecac sirup should yield not less than $\frac{70}{100}\%$ of 1.8 grams, i. e., 1.26 grams of the ether-soluble alkaloids of ipecac; and the standard of strength, quality and purity of the articles was not declared on the label thereof.

Misbranding was alleged in substance for the reason that the statements, "Tincture Cinchona Compound U. S. P.," "Elixir Of Cinchona Alk. Elixir Calisaya N. F.," and "Syrup Of Ipecac, U. S. P.," borne on the respective labels, together with the statement, "Manufactured True To Label," borne on all the labels, were false and misleading, in that the said statements represented that the articles were of the standard defined and prescribed for said articles in the United States Pharmacopœia, or the National Formulary, as the case might be, and that they were manufactured true to label, whereas they were not of the standard defined and prescribed in the said pharmacopœia or National Formulary, and were not manufactured true to said labels.

On January 17, 1927, a plea of guilty to the information was entered on behalf of the defendant company, and the court imposed a fine of \$300.

W. M. JARDINE, *Secretary of Agriculture.*

14834. Adulteration of walnuts. U. S. v. 293 Bags of Walnuts. Decree of condemnation and forfeiture. Product released under bond.
(F. & D. No. 21411. I. S. No. 14358-x. S. No. C-5256.)

On November 24, 1926, the United States attorney for the Eastern District of Michigan, acting upon a report by the Secretary of Agriculture, filed in the District Court of the United States for said district a libel praying seizure and condemnation of 293 bags of walnuts, remaining in the original unbroken packages at Detroit, Mich., alleging that the article had been shipped by J. Shaw, from St. Johns Park, N. Y., September 16, 1926, and transported from the State of New York into the State of Michigan, and charging adulteration in violation of the food and drugs act.

It was alleged in the libel that the article was adulterated, in that it consisted in whole or in part of a filthy, decomposed or putrid vegetable substance.

On December 10, 1926, the Standard Fruit Co., Detroit, Mich., having appeared as claimant for the property and having admitted the allegations of the libel, judgment was entered, finding that the product should be condemned and forfeited, and it was ordered by the court that the said product be released to the claimant upon the execution of a bond in the sum of \$500, conditioned that it be salvaged by sorting out and destroying the decomposed nuts under the supervision of the United States marshal.
