2252. Adulteration and misbranding of vinegar. U. S. v. Robert H. Ball (Ball Products Co.). Plea of guilty. Fine, \$20. (F. D. C. No. 4145. Sample No. 29233-E.)

This product was adulterated and misbranded because distilled vinegar or dilute acetic acid had been substituted for cider vinegar, which it purported to be.

On June 21, 1941, the United States attorney for the Southern District of Ohio filed an information against Robert H. Ball, trading as Ball Products Co. at Dayton, Ohio, alleging shipment within the period from on or about November 26 to December 11, 1940, from the State of Ohio into the State of Kentucky of quantities of vinegar that was adulterated and misbranded. It was labeled in part: "Ball Brand Cider Vinegar."

The article was alleged to be adulterated (1) in that distilled vinegar or dilute acetic acid had been substituted in whole and in part for cider vinegar, which it purported to be; and (2) in that distilled vinegar or dilute acetic acid had been mixed or packed therewith so as to reduce its quality and strength.

It was alleged to be misbranded in that the statements "Superior Quality * * * Cider Vinegar Reduced to 4% Acidity," borne on the bottle label, were false and misleading since it was not of superior quality and did not consist of cider vinegar reduced to 4 percent acidity, but did consist in whole and in part of distilled vinegar or dilute acetic acid. It was alleged to be misbranded further in that it was offered for sale under the name of another food, i. e., cider vinegar.

On June 28, 1941, the defendant entered a plea of guilty and the court imposed a fine of \$10 on each of the two counts of the information, totaling \$20.
