**NATURE OF CHARGE:** Adulteration, Section 402 (a) (3), the product consisted in part of a filthy substance by reason of the presence of insect fragments, mites, rodent hair fragments, feather fragments, an insect, and human hair; and, Section 402 (a) (4), it had been prepared and packed under insanitary conditions whereby it may have become contaminated with filth.

**DISPOSITION:** The defendants filed a motion for a bill of particulars requesting that the Government state more specifically wherein and in what manner the product had been prepared and packed under insanitary conditions and the approximate time at which the conditions were alleged to have existed, and requesting portions of the official samples. The motion came on for hearing on September 22, 1947, and after argument, the court ordered the Government to state what insanitary conditions were found in the plant. The court withheld ruling on the request for portions of the official samples, since the defendants had not made application for such samples from the Food and Drug Administrator in a manner provided by law; and the court stated that if such request was not complied with, the defendants might renew the motion. On October 2, 1947, the Government filed its bill of particulars in compliance with the court's order, and on October 16, 1947, the Federal Security Administrator furnished the defendants with portions of the samples. On January 5, 1948, pleas of nolo contendere were entered, and the court imposed fines of \$500 against each of the defendants, plus costs.
